

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A switch device having a movable electrode, a counter electrode provided to face the movable electrode, and an operating member that pushes at least the movable electrode to bring the movable electrode into contact with the counter electrode,

wherein the movable electrode comprises an elastic deformation part that is extensibly deformed in a direction approaching the counter electrode and a sliding contact point that slides along the surface of the counter electrode when contacting the counter electrode,

wherein the movable electrode is formed as a spiral contactor spirally formed from its winding start end on the outer circumference side towards its winding terminal end on the center side, and the winding terminal end is formed as the sliding contact point, and

wherein the spiral contactor is supported in a cantilever manner.

2. (original) The switch device according to Claim 1,

wherein the counter electrode is formed as a movable electrode comprising the elastic deformation part and the sliding contact point.

3. (currently amended) The switch device according to Claim 1,

~~wherein the movable electrode is formed as a spiral contactor spirally formed from its winding start end on the outer circumference side towards its winding terminal end on the center side, and the winding terminal end is formed as the sliding contact point~~

wherein the spiral contactor includes a plurality of turns.

4. (original) The switch device according to Claim 1,

wherein a plurality of stages of electrodes having the elastic deformation part and the

sliding contact point are stacked with a predetermined distance in the stacked direction at a position facing the movable electrode, and the movable electrode contacts respective counter electrodes that face the movable electrode in accordance with the push-in amount of the operating member in the stacked direction.

BEST AVAILABLE IMAGES

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images include but are not limited to the items checked:

- ☐ **BLACK BORDERS**
- ☐ **IMAGE CUT OFF AT TOP, BOTTOM OR SIDES**
- ☐ **FADED TEXT OR DRAWING**
- ☐ **BLURRED OR ILLEGIBLE TEXT OR DRAWING**
- ☐ **SKEWED/SLANTED IMAGES**
- ☐ **COLOR OR BLACK AND WHITE PHOTOGRAPHS**
- ☐ **GRAY SCALE DOCUMENTS**
- ☐ **LINES OR MARKS ON ORIGINAL DOCUMENT**
- ☐ **REFERENCE(S) OR EXHIBIT(S) SUBMITTED ARE POOR QUALITY**
- ☐ **OTHER: _____**

IMAGES ARE BEST AVAILABLE COPY.

As rescanning these documents will not correct the image problems checked, please do not report these problems to the IFW Image Problem Mailbox.
